DOCTOR BABOR

BOOST CELLULAR Bi-Phase Ampoules

Concentrated • Precise • Revolutionary

Love the effectiveness of the BABOR fluids but want a moisturised finish? Look no further, *DR BABOR Bi-Phase Ampoules* are revolutionary and a first for the world! Available in 3 high performance precision formulas, highly concentrated with 2 perfectly co-ordinated phases that combine to form an effective fluid/oil blend. Bi-Phase Ampoules provide you with the instant effects of an active ampoule combined with the rich moisturizing effects of an oil, leaving your skin with that “just-moisturized” feeling.

Youth Control Bi-Phase Ampoule Anti-wrinkle. Firming. Contouring.
Stress-Relief Bi-Phase Ampoule Calming. Strengthening. Moisturizing
Glow Booster Bi-Phase Ampoule Radiance. Evenness. Glow.

REFINE CELLULAR

Cleansing with the wow factor

Detox Lipo Cleanser

Not just a cleanse – also a detox. The new *DOCTOR BABOR REFINE CELLULAR Detox Lipo Cleanser* combines the innovative LipoTherm formula with a powerful detoxifying effect to create a gentle facial cleanser with a super-cleansing action. The result: lipid-based deep-pore cleansing coupled with an intensive thermal effect. When the balm is applied to the skin (do not moisten beforehand), it melts on contact, producing a gentle, warming effect, which opens the pores. When massaged into the skin with moistened fingertips, the balm transforms into a milky micro-emulsion that removes even deep-seated impurities. Any active ingredients subsequently applied can then better absorbed by the skin and the detoxifying effect is an added bonus! The innovative synthesis of aloe vera and broccoli extracts has an anti-pollution effect, and shields the skin from environmental aggressors and free radicals. The complex also stimulates the skin to produce natural detox enzymes and protects the skin against moisture loss.
